Acknowledgements

It is important for donors to be able to connect their funds to tangible outcomes, so please make sure to acknowledge the funders who supported your work.

It is also important to acknowledge all the critical non-author contributors such as colleagues, research associates, data analysts, administrators, translators, and survey firms. For many of these groups of individuals, acknowledgements provide the best record of their professional activities.

If you participated in the survey design, data collection, etc., then you **MUST** acknowledge the project funder(s) **AND** cite the data. If you are using the data as a third party, you are **not** expected to cite the donors but **MUST** cite the data.

NB: All who conducted research while supported as PhD students, post-doctoral fellows, or researchers hosted by GLD should acknowledge the 'Big VR' in their publications.
